Week 3

SCIENCE
EXPERIMENT
The Naked Egg

Science Skill:

Spy Magnus

Watching near and far!

Observing over time

Ingredients:

- An egg
- A tall glass
- Vinegar

Link to experiment:

<https://www.stevespanglersscience.com/lab/experiments/naked-egg-experiment/>

Spy Magnus

Watching near and far!

Observing over time

Observations:

Create a **Naked Egg Journal**, observing the changes you see over the next week, everyday into your journal. In your journal, include the dates of your daily observations. Take pictures of your egg over the course of the week to document the process. If you have a printer, print out the progress pictures of your egg including them into your journal.

After the week is done and you've achieved a naked egg, take a picture of your naked egg and your journal and upload to class dojo!

We are very excited to see the outcomes of your experiment!
