

## Art – Under the sea.

This spring term we will be taking the plunge into the sea and diving deep!

Firstly switch on those artistic brains that you all have! Then, make sure you have a piece of paper/card in front of you and a pencil to draw.

Colouring pencils/pens will be needed too. If you don't have any, do not worry, just use the drawing pencil to shade in.

The task is for you to create a sketch of what you would expect to find if you went scuba diving in the sea/oceans around the world.

Think about what you may find, what would the creatures look like?

## Task Challenge:

I am fully aware that some of you created amazing pictures and sculptures during the Christmas break for 'Under the sea'. If you have already created pictures try to use your imagination on what you might find if you ventured down to the darkest parts of the ocean where no person has been before.

What would you see?

Would there be undiscovered creatures that have not been seen before?

Would you be able to see anything?

What equipment might you need?

When finished please send in your sketches to class dojo so I can see all of your masterpieces!!
